

CENIT CARES

OUR CURRENT CENIT CARES PROJECT

“Deutsche Verkehrswacht e.V.” – school crossing guards

Heiko Obmann supported an initiative of Jenoptik via CENIT Cares. Jenoptik launched their social commitment project helping “Deutsche Verkehrswacht e.V.”. This non-profit organizations educates children, youth, adults and seniors to be save on the road in future. Traffic safety first could be a related motto for Heiko and this organization.

With around 60,000 volunteer members, the association takes care of avoiding accidents in road traffic and thus protecting lives. The association takes up the basic human need to be safe on all routes and arrive unharmed. The traffic watch takes care of all road users, regardless of their age and how they are traveling.

In particular, the extensive offers for children and adolescents should be emphasized here, like the support of school crossing guards, as many parents are unable to fully provide early road safety education.

- Thank you Heiko for helping our children be safer. -
