

CUSTOMER REFERENCE

# PAUL VAHLE GMBH & CO. KG

**CENIT SAP PLM Foundation**

Establishing the basis for digitization and industry 4.0 concepts

# THE PROJECT AT A GLANCE

## THE CHALLENGE

- Increasingly complex maintenance of the individually programmed system
- Improvement of process quality
- Faster processing times in the product development process
- Creation of an improved basis for cost reductions in the manufacturing process

## THE SOLUTION

- CENIT SAP PLM Foundation
- As basis for digitization and industry 4.0 concepts, both within VAHLE and for the appropriate operation of concepts for the digital transformation of VAHLE customers
- With SAP ECTR and process integration to CATIA V5

## THE BENEFITS

- Cost reduction & increased efficiency due to new process continuity
- Improved control due to transparency and auditing possibility of processes
- Reduction of future costs due to update capability of the standard solution

## WHY CENIT?

- Best practice from more than 25 years of experience in SAP PLM
- Distinct understanding of the industry, processes and technology
- SAP development partner for CATIA V5 integration in SAP systems
- Model of cooperative partnership

### ABOUT PAUL VAHLE

The VAHLE Group supplies individual energy and data transmission systems for mobile industrial applications in a wide range of applications.

The innovative and solution-oriented product systems are divided into the areas of power transmission, data transmission, positioning and control of mobile industrial applications.
